Age Verification For Magento

Introduction:

The Age Verification for Magento 2 is an Extension that will verify the age of a visitor before accessing any web page. This extension will become the quickest method to configure a page load window that checks the age of a website visitor.

Features:

Front office features:

✔ It Allows merchants to verify customer age before granting access to the site.

✔ Provides Four Different Types of Layouts, with a Beautiful design.

✔ Create any number of age verification with different content.

✔ The administrator can apply age restrictions for the entire site or only for specific pages.

Back office options:

✔ Preview age verification in the admin panel.

✔ Support multiple options to adjust the default design.

✔ Admin manage popup globally or a particular page.

✔ Admin can choose to show custom text to underage visitors or restrict them.

Note :- If the customer's verify the age once, then the age popup will not be showing again on the pages.
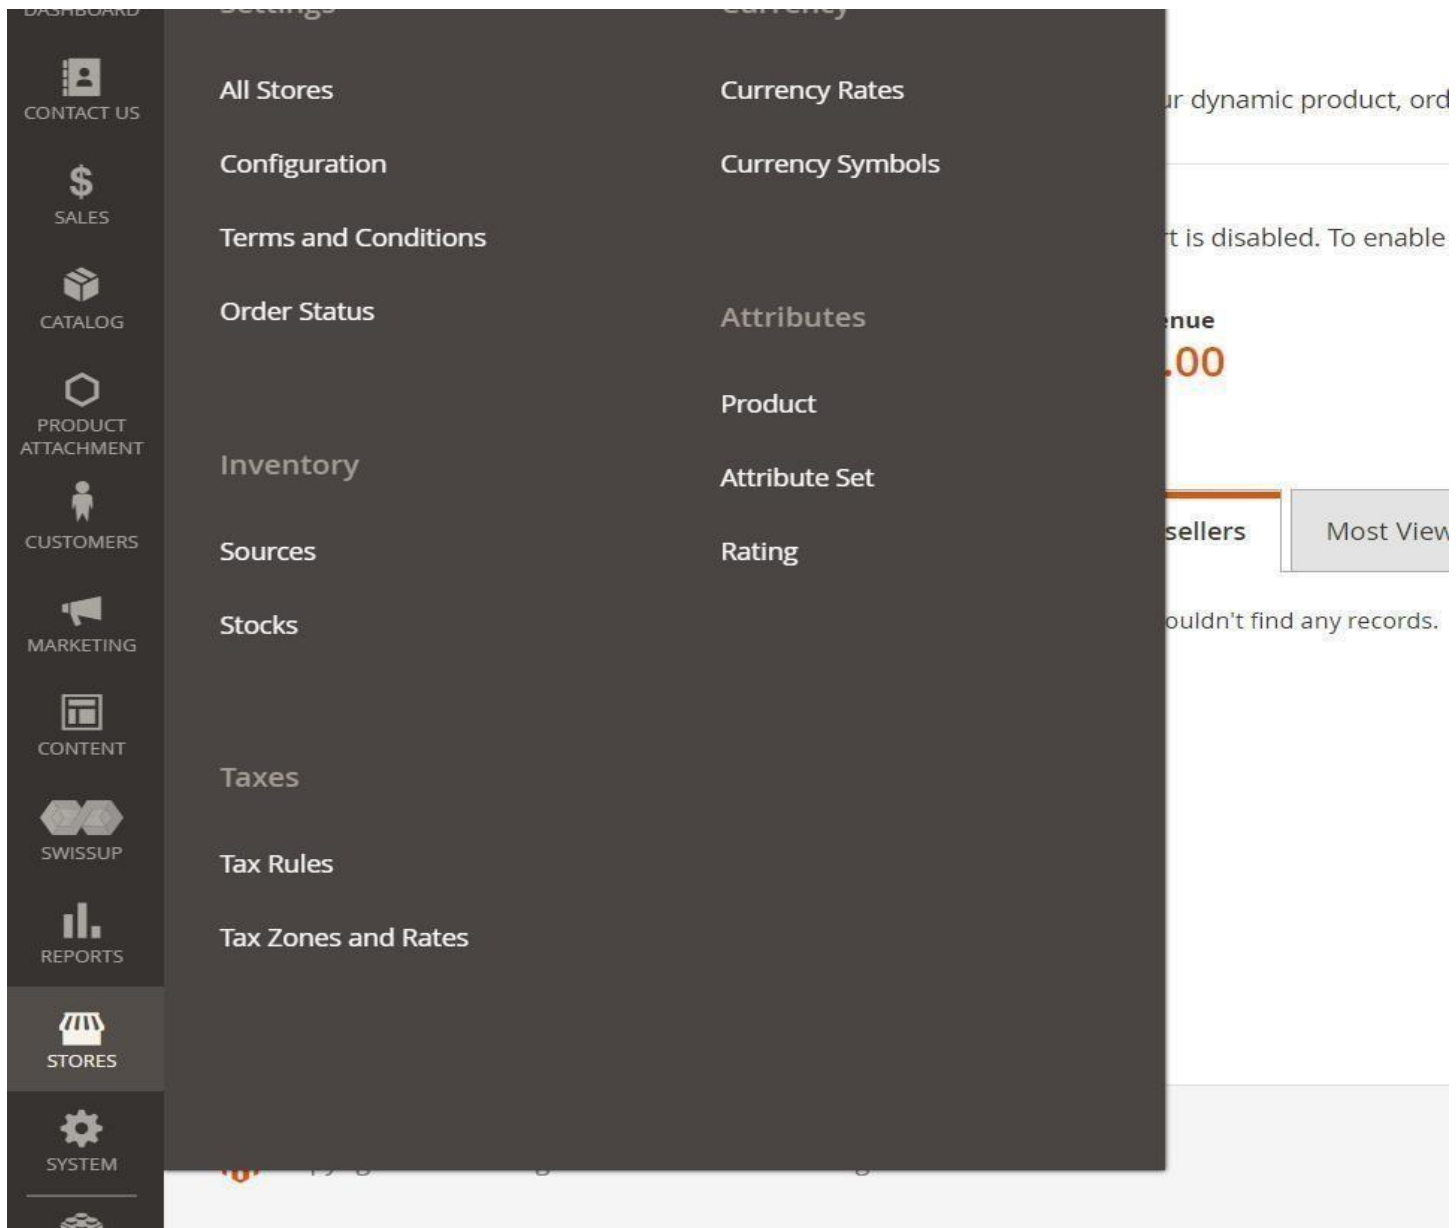

Age Verification For Magento
